One Android device is mounted onto the robot and is called the Robot Controller. The Robot Controller acts as the "brains" of the robot. It does all of the thinking for the robot and tells the robot what to do. It consists of an Android device running an FTC Robot Controller app. There are two hardware options currently being used:

Android 22 is a failed attempt to make a female robot. Unfortunately, he made her head too big, so that's her weak point. She will destroy anything that's in her path; with one tap, it would explode, so the Z-Fighters wouldn't be able to get close. Also, she used the Dragon Balls to wish to become a human.
