The time necessary for an electronic flash to recharge and be ready for the next picture, it often depends on the type and condition of the battery and the guide number of the flash. Repeating Flash A feature available in some flash units that fires the flash many times while the shutter is open, during a brief exposure, producing a strobe ...

Speedlight Camera Flashes | Nikon

Repeating again: If your flash specifies Guide Number for 105 mm zoom, but you are using it at 24 mm zoom, you absolutely need to know and use the 24 mm zoom Guide Number (see your flash manual for its complete Guide Number chart for various zoom settings). Calculator Use Example.

Understanding Camera Flash Guide Numbers, plus GN Calculator

The specifications will also show the flash settings at which the guide number is calculated, including the ISO and flash zoom setting. I use the cheap Godox units. They have a guide number of 60 meters, calculated at ISO100 and a full flash zoom setting of 200mm.

Guide Numbers Explained for Manual Flash - Calculator ...

Using the guide number to calculate flash exposure. Well, if we want to be more methodical than just looking at the back of our camera display, we can use the Guide Number of our flash. Keep in mind that the GN is given for a specific zoom setting on the flash-head. Zooming from wide to tele on our flash, changes the Guide Number!

Tutorial: How to use the guide number of your flash

The Guide Number (GN) is as much about the reflector coverage angle as about the power level.. If the GN of one flash is specified as GN 180, but its narrow zoom coverage angle is concentrating all the power to only illuminate a small bright spot on the wall, and another flash specifies GN 90, but its wide reflector is illuminating the entire room, then we don't know much about the difference.

Compare Power Rating of Camera Flashes with Guide Numbers

The Nikon D7000 is a 16.2-megapixel digital single-lens reflex camera (DSLR) model announced by Nikon on September 15, 2010. At the time of announcement, it replaced the outdated D300/D300s & D90. The D7000 offers numerous professional-style features over the D90, such as magnesium alloy body construction, weather and moisture sealing, a 2,016-segment color exposure meter, built-in timed ...

Nikon SB-700

Manufacturer Specified Flash Range. The Nikon D7500's flash is rated with a Guide Number of 12/39 (m/ft) at ISO 100 in both Auto TTL mode and in Manual flash mode. That works out to about 14 feet...

Nikon D7500 Review - Flash - Imaging Resource

This flash power variable can easily be compensated for in the guide number equation by reducing one of the other variables. For instance, if using a flash with a guide number of 100 (at ISO 100) at 1/4 power and photographing a subject at 25' away, you will now require an aperture of f/2 (which is 1/4 the original example's given aperture).
