User Stories

User stories are often written on index cards or sticky notes, stored in a shoe box, and arranged on walls or tables to facilitate planning and discussion. As such, they strongly shift the focus from writing about features to discussing them. In fact, these discussions are more important than whatever text is written.

User Stories

The user story format helps to ensure that each requirement is captured in a feature-oriented, value oriented way, rather than a solution oriented way. In DSDM projects, User Stories are recorded in the Prioritised Requirements List (PRL). This is the equivalent of a Product Backlog in other Agile approaches.
