The television was invented in the early 20th century as a novel way to transmit moving pictures through radio waves. Early television sets actually used mechanical means to etch out a picture from a signal using a Nipkow Disk, with the first demonstration taking place in Paris in 1909. This early “television” technology was capable of transmitting an 8x8 pixel image, with the first ...

My son recently gave me a larger Dynex TV to replace my 32" Sony. I use an antenna for reception and typically pick up approx 50 channels. When I first set up the TV I did a channel search and all worked well. About 2 days later, I lost two of the channels I watch often, 9.1 and 9.2. These are local...
