The GY6 engine is an air cooled design, and would not run as efficient converted to water cooled. This was someone's idea to reengineer a perfectly good engine. Honda did make a 150cc water cooled engine but was not of the GY6 design. The water cooled conversion has been popping in and out of existence since about 2005.

Shopping for Chinese ATV Parts or Chinese Scooter Parts is a bit different than shopping for parts for a domestic or Japanese machine, for a couple of reasons. First, most Chinese machines are assembled with aftermarket parts; there are no OEM parts. Because Chinese machines are assembled with parts from a variety of manufacturers for the same application, even in the
