Placental pathology involves insults in either the maternal or fetal vascular compartments or to the placenta itself. The clinical effects of these pathologies are, for a large part, dependent on placental reserve.

### **Placental Pathology - an overview | ScienceDirect Topics**

Poor placentation is defined as the failure of physiologic transformation of spiral arteries and appears to arise from an inadequate or shallow trophoblast invasion [8,58,61]. Poor placentation is also a leading cause of preeclampsia and other abnormal pregnancies, such as spontaneous abortion, SGA, preterm labor and preterm PROM [7,9,62-65]. In preeclampsia, spiral arteries of the myometrial ...
