Obtain an imprint of the credit card that is being used. If you don't have an imprint machine, you can get an imprint by placing the card (facing upwards) between the two carbon copies of paper. Use a coin or other object to scratch the top sheet of paper. As you scratch, you will notice the credit card numbers appearing on the top sheet of paper.

### **Manual Credit Card Imprinters are Becoming Obsolete ...**

Regardless of the design, the purpose of these devices is to take a (you guessed it) physical imprint of the customer's credit card for further processing later. The imprinter captures all the vital information on the card, and much more quickly than you could by copying it by hand. These things were all the rage in the 70s and 80s.

### **Reasons To Reconsider Your Manual Credit Card Machine**

Manual imprinting machines slide over a credit card covered with carbonless forms containing information about the merchant and with designated spaces for the imprint of the credit card number, expiration date and name of the credit card holder.
