### Meyer Sound MAPP XT System Design Tool » Sonic Circus

Meyer Sound has announced MAPP XT, launched in conjunction with the company's new, patent-pending LEOPARD and 900-LFC linear line array system. MAPP XT is the first audio system design tool that allows users to design systems with truly useful loudspeaker headroom information.

### Meyer Sound Introduces MAPP XT System Design Tool

All topics are demonstrated in practice using Meyer Sound solutions, including loudspeakers, rigging hardware, the MAPP XT System Design Tool, Galileo GALAXY Network Platform, Compass Control Software, RMServer Remote Monitoring System, MDM Power and Signal Distribution Module, and SIM 3 Audio Analyzer.

### Training | Meyer Sound

Meyer Sound EASE Files. We would like to provide some additional information regarding our EASE files as we represent our products differently than other manufacturers. Our EASE files are calibrated to show AVG SPL, and will be comparable to MAPP AVG SPL. Linear Peak SPL will be 12.5dB SPL above the AVG SPL shown in EASE.

### Products | Meyer Sound

Unlike a formulaic approach, any Meyer Sound loudspeaker configuration can be created with Meyer Sound's Spacemap Go tool and analyzed with MAPP 3D. For this reason, it's highly beneficial to connect with Meyer Sound Design Services to help design a system that meets your performance goals.
