1998, this work is concerned, in the main, with reproduction - for which marriage is not an essential prerequisite.

Nevertheless, much of sexuality and the greater part of parenthood still subsist within the marital relationship.

during a seizure may have major medico-legal implications. The two main areas where this can occur are in determination of intent for alleged criminal actions, and in determination of fitness to drive or undertake similarly dangerous activities. This chapter explores the issues surrounding epileptic automatisms and criminal behaviour.
