The Summoner's abilities are very strange. Because the Eidolon dominates the Summoner's build, very little is actually important to the Summoner. Str: Dump to 7. Dex: Essential for AC, saves, and ranged attacks. Con: Good for hit points, but not super important because you have a big scary Eidolon to stand in front of you.

### RPGBOT - Pathfinder - Practical Guide to Eidolons

Advice on a good summoner build I've been trying to come up with a good summoner build but because I don't know the spell list I don't really know what classe/classes would make the best summoner. I was thinking an MT made of necro wiz and herald caller of asmodeus but I'm not sure where the "summons" are in wiz and if they get an animate dead ...

The summoner can direct all of the eidolon's actions while merged, can perceive through its senses, and can speak through its voice. The summoner can use this ability for a number of rounds per day equal to his summoner level. He can end this effect at any time as a swift action. The summoner emerges in a square adjacent to the eidolon if able

Compared to martial classes a Summoner has a much higher "skill floor," meaning that it's harder to make a crappy Summoner build. A Synthesist Summoner, especially at low levels, is very often one of the better melee fighters you can make, as you basically have two dudes worth of HP, decent melee ability, and decent spells.
