This is why some people believe the world is flat, according to an astronomer. The idea of a flat earth is theoretically impossible, according to Stuart Clark

**This is why some people believe the world is flat ...**  
Hi Steve. You can say the earth is flat, i can say the earth is a cube, and others say the earth is a globe. The difference is the people who say the earth is a globe have a scientific predictive model that works, they have constructed this model based on the assumption that the earth is a globe and it works very well.

**Proof the Earth is Flat - Flat Earth Facts**  
Several pre-Socratic philosophers believed that the world was flat: Thales (c. 550 BC) according to several sources, and Leucippus (c. 440 BC) and Democritus (c. 460–370 BC) according to Aristotle. Thales thought that the Earth floated in water like a log. It has been argued, however, that Thales actually believed in a round Earth.

**Why the World Is Flat | WIRED**  
Although science has proven that the Earth is an oblate spheroid, some people continue to believe our planet is flat. Aristotle also saw how ships gradually disappeared over horizon lines, with their top sails disappearing last. Some believed it was flat, but others knew it to be round; gravity was not fully understood either.

In fact, for most people the world is not yet flat at all. But even if we're talking about only 10 percent, that's 300 million people -- about twice the size of the American work force. And be...

**It's a Flat World, After All - The New York Times**  
Phase one lasted until 1800, when the world was run by states. Then, between 1800 and 2000, phase two saw the rise of multinational corporations. The third phase of globalization, in place since the year 2000 and continuing into the foreseeable future, is distinguished by individuals seeking to take control of their economic destiny. That, in a nutshell, is the thesis of The World Is Flat, first published in 2005.

**Flat Earth PROVEN By Independent Research**  
The World is Flat discusses about how telecommunications in the digital age substantively changed the economics of the whole world. It describes how America has fallen behind parts of the world like India and Russia in taking greatest advantage of these changes and he predicts a shifting of economic supremacy in the future.
